Schaumstein Ranges

One-Of-A-Kind Features

UV resistant

Ideal for **Outdoor use**, suited for indoor as well

Easy to handle and transport

Super lightweight when empty and easier to handle **when filled with soil!**

Paintable

Any acrylic PVA Paint can be used
Directions indicated on all labels

Constant soil temperature

Closed cell polyurethane foam, used to manufacture Schaumstein Range, has **excellent insulation properties**

resulting in **Constant soil temperature** and therefore happy plants

Protects plant roots

Constant soil conditions

Schaumstein Range has **no chemical leaching or reaction**

Constant Moisture

Schaumstein Planters have built in water retention units to retain some water in the planter for less frequent watering. It can be removed if complete drainage is preferred.

Handmade
in South Africa

Lightweight
and tough

Durable
Non-corrosive

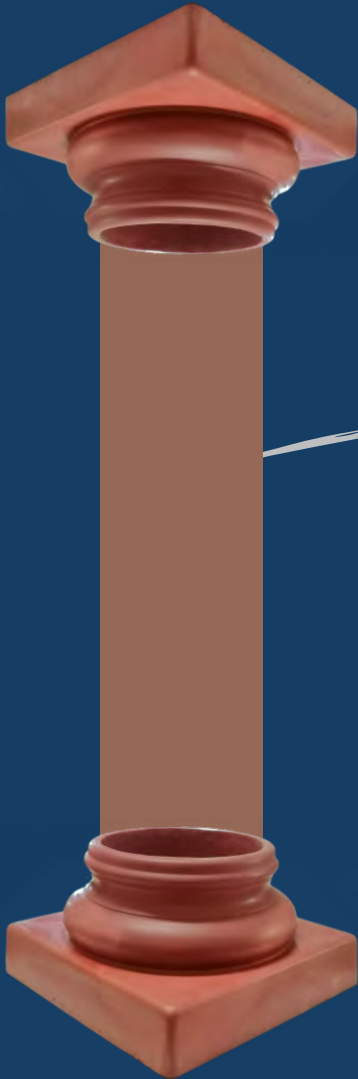

Easy
Self-install

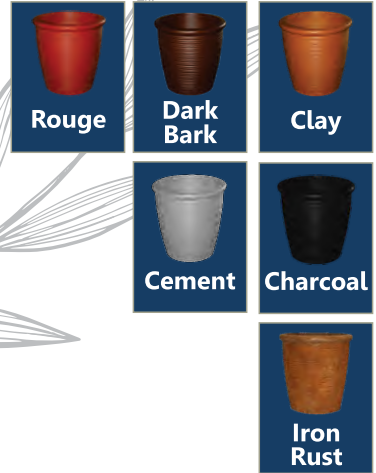

Column Headers & Footers

Available upon request
