REFLECT

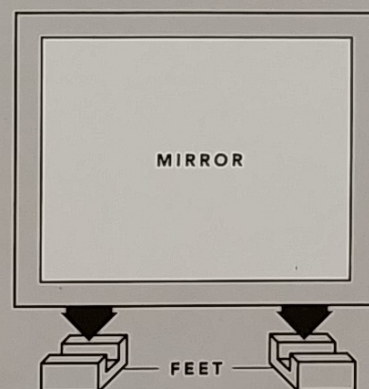

MIRROR MAZES

THE COMPETITIVE GAME OF FLIPPED PERSPECTIVE!

INSTRUCTIONS

REFLECT

MIRROR MAZES

SET UP

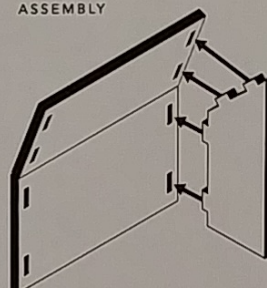

MIRROR

Remove the double-sided mirror from its sleeve and add the feet to its base.

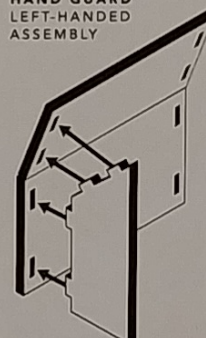

HAND GUARDS

Follow the diagrams shown to set up the hand guards. A right-handed person will attach the smaller piece on the left side and a left-handed person will attach the smaller piece on the right.

CHALLENGE

- Place the mirror between the players in the centre of the playing surface.
- Choose a challenge from the challenge pad, taking note of the difficulty in the bottom right corner of the page. For two players, each should select the same challenge.
- Place the selected challenge in the transparent pocket. Then, place the challenge on the playing surface in front of the mirror with the REFLECT logo close to you.
- Place the hand guard between you and the challenge so you cannot look directly at it. You should only be able to see the challenge in the reflection.
- Take a pen each.

HOW TO PLAY

TWO-PLAYER GAME

Both players put their marker in the starting position, then one player says, "3, 2, 1, Go!" and the challenge begins! No pre-planning your route!

There are two different types of challenges – maze and path.

MAZE CHALLENGES

The aim of these challenges is to be the first player to draw a line from the START of the maze to the FINISH.

If a player accidentally crosses a wall, or hits a dead end, they must keep their marker on the page and retrace their marker line back to the correct side before continuing. The first player to reach the finish is the winner!

In the event of a tie, both players rub out their lines and then race to complete the maze backwards. The winner should keep this card to keep a record of the score.

PATH CHALLENGES

The aim of these challenges is to stay within the given walls while making the least number of mistakes possible. These challenges are focused on accuracy, not time. Players can choose their own preferred START point if there is no START or FINISH point marked on the path.

If a player accidentally crosses a wall they must keep their marker on the page and retrace their marker line back to the correct side before continuing.

On some of these challenges there are multiple shapes to trace, so players will need to lift their markers off the page to move to the next shape.

Once both players declare that they are finished, compare the two drawings for accuracy. The player who most accurately stays within the lines is the winner.

In the event of a tie, whoever finished the challenge fastest is the winner. Again, make sure to keep hold of the card you have won to keep a record of the score.

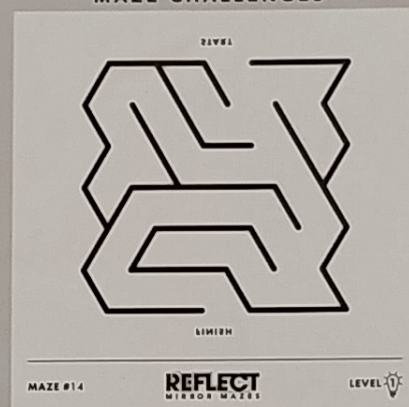

WINNING THE GAME

The first player to win five challenges wins the game.

SINGLE-PLAYER GAME

The rules are the same, but the player races against a 60-second timer for the maze challenges and tries to improve their accuracy each time for the path challenges.
